

Spreader Bars for Forklift

Spreader Bars for Forklift - ELME has been proudly operating since 1974, becoming the biggest independent spreader manufacturer in the globe. They are a devoted manufacturer of spreaders for a lot of various applications such as the swap bodies, trailers, and handling of containers.

Engineering is done in house by way of utilizing all the newest CAD systems and FEM tools. The ELME company presently has over one hundred twenty five staff members. Their spreaders are supplied to reach quayside, ship-to-shore cranes, stackers, straddle carriers, lift trucks and gantry across the world.

The product series of ELME include a lot of spreaders intended for a variety of trailer and container handling operations. Some of their inventory include: Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift trucks and a huge range of attachments.

Manufacturing and production of ELME products are developed in highly automated purpose built factory. In the year 2008, they made 1150 spreaders by way of using quality components to ensure dependability and excellent standards. Major features of ELME include design simplicity, market feedback and ground-breaking modular spreader concept.
