

Clark Forklift Parts

Clark Forklift Part - Currently, there are no less than 350,000 Clark lift trucks performing globally, and upwards of 250,000 operating in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand powered trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 exclusive brands of lift trucks, with components covering more than 120,000 specialized parts for all of its automated equipment. Your regional Clark Dealer is your total source for availability of all your components needs offered by Clark Totalift.

Clark's exceptional Parts Distribution Centers are conveniently stationed in Louisville, Kentucky, which serves both their customers and dealers in North America, and Changwon, South Korea, which handles their Asian dealers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Motivated to supply the highest level of value and service to our clients, Clark remains on the leading edge when it comes to improving efficiency and benefiting performance.

Clark Totalift has a very outstanding global support network. With over 550 locations worldwide, supplier representation in over 80 countries and 230 locations in North America, their high level of dedication to their clients predominates the materials handling market.

Clark proudly remains an innovative leader of the material handling industry, pioneering protection features such as the worker restraint system. This exceptional dedication to safety is currently a customary feature on every forklift.

Clark's recurrent mission to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift producer across the world to be certified with the internationally accepted quality standard ISO 9001 for every one of their manufacturing facilities. Also, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any environmental limitations, thus placing them in a dominant industry position.

Clark has chosen the particularly economical and advantageous structure of "Lean Production" for its assembly plants and use of resources. This structure was established to acknowledge the most effective approaches of production plant management and ensuring maximum proficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers join together to develop the effectiveness and excellence of their merchandise while minimizing costs. The new value engineering program combines innovative product improvement and provides improved client support and service within the industry.
